## Summary

In addition to my work as a Python Software Developer at Visma, I am also currently a student in my third year of computer science studies at Lucian Blaga University of Sibiu. This combination of professional experience and formal education has given me a well-rounded foundation in computer science and has allowed me to hone my skills in both theory and practice.

As a Python Software Developer, I have gained extensive experience in system engineering and software development, particularly in the realm of Cloud Computing and Automation. I have gained a deep understanding of Python, and have applied it to various projects and tasks.

I am passionate about continuing to learn and grow as a Software Developer, and I am excited to apply the knowledge and skills from my work and studies to future projects.

## Experience

### Python Developer

Visma

Jan 2022 - Present (1 year 2 months)

### System Engineer

Visma

Jul 2021 - Jan 2022 (7 months)

## Education

### Lucian Blaga University of Sibiu

Engineer's degree, Computer Science

Sep 2020 - Jul 2024

### National College "Onisifor Ghibu"

Baccalaureate diploma, Mathematics and Computer Science

Sep 2016 - Jul 2020

## Licenses & Certifications

### PCEP-30-02 - Python Institute

ocqX.pXuq.rwe7

**European Computer Driving Licence - ECDL - ECDL ROMANIA**

**Certificate of Professional Competence in IT - Ministerul Educației Naționale**

## **Skills**

Python (Programming Language) • REST APIs • Amazon Web Services (AWS) • Object-Oriented Programming (OOP) • Django • Docker • Software Development • Git • Infrastructure as code (IaC)

- Google Cloud Platform (GCP)
